

# Copeland Funds 2019 Estimated Capital Gains Distribution

Mutual funds realize gains and losses from selling securities held in their portfolios throughout the year. Tax laws require that the funds distribute the capital gains and ordinary income to their shareholders before year-end.

The following table shows the estimated capital gain distributions as of November 21, 2019 that are scheduled to be paid out in December. These estimated distributions can change prior to the distribution date due to market activity and change in shares outstanding. The estimates do not include ordinary income distributions the funds may be making.

Shareholders are strongly advised to consult their own tax advisors with respect to the tax consequences of their investments in the funds.

## Copeland Funds Estimated Capital Gain Distributions
